Book File Details:

Review: Very informative and well written by someone who has learned by trial and error and the mentoring of others. Of all the artifact books that I have purchased, this one is my favorite. It isnt overly technical, or scientifically written, and every thing is explained in a way that makes you think, or re-think the processes that you have been using to...

Description: Between paying the light bill and raising a family most people find it impossible to reach the level of expert artifact hunter, simply because they do not have the time to develop the initial knowledge base. Without this knowledge base you will fail more than you succeed. Few people have the wherewithal to get past these difficult first years. Within...
